

Go Into the Night

Chorus:

If you go into the night, there's music in the night
Calling out a song that's clear
A nighttime pal is the Great Horned Owl
With a song you can hear, and the owl you can hear

Chorus

Down in the thicket, there are lots of crickets
With a song that you can hear, and the crickets you can hear

Chorus

Down by the bog there's a million frogs
With a song that you can hear, and the frogs you can hear

Chorus

The lonesome note of the lone coyote,
With a song that you can hear, and the coyote you can hear

Chorus

The silent wonder of peoples' hearts
Is a song that you can hear, and the silence you can hear
