Tune by Phish, chorus by Jacob Sackin
Additional verses by Jill Schulte, Allison Hartman and Madeleine Kettner

Chorus

C **Am** **F** **G**
Never ever saw the stars so bright, counselors are heck-a tight
C **Am** **F** **G**
All the trees reach amazing heights, my time outside has made me feel alright

Verses

Am **G** **C** **F**
1. On the first day everything's new, you're surrounded by a whole new crew
Am **G** **C** **G** **C**
You didn't know that you would meet a group of friends that you could keep.

2. You've gone on hikes both far and near, if you were quiet might have seen some deer
Maybe at home you'll miss the trees, but you can't wait to see your families.

3. Geology — you were really brave, wiggled under the boulder cave
Froze your feet in the creek down there, but now you'll always be a polar bear.

4. Discovery — an exciting day; you probably even got to see El Rey
On the blind walk you couldn't see--I bet you crashed into a tree!

5. Ecology — how energy flows, you learned how dead things decompose
And why producers never miss a chance for photosynthesis.

6. Conservation — we must share our food and water, and our air
Each one of us can make the choice, let the whole world hear your voice

7. On Me-wuk day you didn't tire, though it's hard to make a fire
Maybe you liked the village we saw, and you could live in an oomacha

8. When you get home you'll watch TV, take a bath and eat candy
But don't forget what you now know: the Planet Earth it is your home
